SUBJECT INDEX TO VOLUME 122

Acetylcholine
in muscle action potential (Merikangas & Johns), 37
Adenosine triphosphate
and related glycolytic enzymes (Smith et al), 168
Adrenogenital syndrome
fetal androgens and female gender identity in early-treated (Ehrhardt et al), 160
Aldosterone
effect of low sodium diet on secretion (Raiti et al), 229
secretion rate in hypopituitarism (Raiti et al), 229
sodium balance in salt-losing nephropathy (Walker et al), 45
Androgens, fetal
female gender identity in early-treated adrenogenital syndrome (Ehrhardt et al), 160
Anemia, pernicious
auto-immune hemolytic disease in association with (Charache et al), 184
genetic basis for (McIntyre, P. A.), 181
Aneurysm
extracranial and cervical arteriovenous of carotid and vertebral arteries (Verbiest, H.), 350
Anxiety
cigarette smoking, coronary heart disease and the genetic hypothesis (Thomas, C. B.), 69
Artery
carotid and vertebral, ligation of (Langfitt et al), 261
coronary, narrowing in swine (Malinin et al), 102
extracranial and certical arteriovenous aneurysms of carotid and vertebral (Verbiest, H.), 350
ocular tonography and ligature of carotid artery (Arana-Iniguez et al), 301
Atrium
giant left (Roberts et al), 26
Auto-immune hemolytic disease
in association with pernicious anemia (Charache et al), 184
unreliability of Schilling test in detecting genetic predisposition to disease (McIntyre, P. A.), 181

B_{12} absorption in family members (McIntyre, P. A.), 181
Bile pigment balance (Abei & Iber), 112
Bilirubin
carbon-14 labelled (Abei & Iber), 112
distribution and kinetics of removal of (Abei & Iber), 112
in the dog with ligation of common bile duct (Abei & Iber), 112
obstructive jaundice (Abei & Iber), 112
Biopsy
from ventrolateral nucleus (Asenjo, A.), 284
Blood donors
characteristics and evaluation as control subjects (Cohen, B. H.), 358
Blood pressure
diastolic, in Los Angeles heart study (Clark et al), 77
systolic, in Los Angeles heart study (Clark et al), 77
Brain
development of grand mal after missile wounds of the brain (Russell, W. R.), 250
infarctions with increased pressure, surgical indications (Greenwood, J., Jr.), 254
neoplasms (Lang et al), 336
swelling, experimental (Langfitt et al), 261
Bronchial gland
alterations in, (Esterly & Oppenheimer), 94
Bronchiectasis
in cystic fibrosis, (Esterly & Oppenheimer), 94

Carbon 14
labeled bilirubin (Abei & Iber), 112
Central nervous system disease, non-invasive associated with lymphoid tumors (Richter & Moore), 271
Central venous pressure
technique for obtaining accurate reproducible (Robson, M. C.), 232
Cerebellar hematoma, spontaneous
report of 3 operated cases (Lichtenstein, R. S.), 319
Cerebrovascular occlusive disease
infarction with intracranial pressure increase, surgical indications (Greenwood, J., Jr.), 254
Cerebrum
blood volume (Langfitt et al), 261
edema (Langfitt et al), 261
ischemia (Langfitt et al), 261
Children
a clock mechanism esotropia (Richter), 218
Chordae tendineae, ruptured
clinico-pathologic study of two patients (Roberts et al), 26
Chromosomes
of endometrium (Katayama & Jones), 84
Cigarettes
smoking, coronary heart disease and the genetic hypothesis (Thomas, C. B.), 69
Clivus chordoma
rhinoseptal route for removal (Guiot, G.), 329
Clock-mechanism esotropia
in children (Richter, C. P.), 218

Common bile duct
obstruction of (Abei & Iber), 112
Conduction velocity of ulnar nerve
motor (Narabayashi, H.), 295
muscle afferent (Narabayashi, H.), 295
skin sensory (Narabayashi, H.), 295
Congenital malformations
abdominal wall absence (Texter & Murphy), 224
Contraction
bands, myocardium (Malinin & Perry), 380
continuous, of isolated hearts (Malinin & Perry), 380
Coronary artery disease and hypertension
alcohol (Thomas & Ross), 196
coffee (Thomas & Ross), 196
drinking (Thomas & Ross), 196
eating (Thomas & Ross), 196
exercise (Thomas & Ross), 196
experimental coronary artery narrowing in swine (Malinin et al), 102
habits (Thomas & Ross), 196
medical students (Thomas & Ross), 196
precursors of (Thomas & Ross), 196
sleeping (Thomas & Ross), 196
studying (Thomas & Ross), 196
Corticosterone
secretion rate in hypopituitarism (Raiti et al), 229
Cortisol
secretion rate in hypopituitarism (Raiti et al), 229
Cortisone
unique influence on transit of specific macromolecules across vascular walls in immune complex disease (Germuth et al), 137
Cystic fibrosis
bronchiectasis in (Esterly & Oppenheimer), 94
necrotizing pneumonia (Esterly & Oppenheimer), 94
pulmonary lesions (Esterly & Oppenheimer), 94
Cytosiderosis
and iron deposits in ventrolateral nucleus of thalamus in Parkinson's disease (Asenjo, A.), 284

Dandy-Walker syndrome
obstruction following posterior fossa surgery (McLaurin & Ford), 309
Diastolic blood pressure
Los Angeles heart study (Clark et al), 77
Diet
plantain and heart lesions (Antia et al), 87
Discriminant function analysis
precursors of hypertension and coronary diseases among healthy medical students (Thomas & Ross), 196
Disease
auto-immune hemolytic (Charache et al), 184
coronary artery (Thomas & Ross), 196
Hodgkin's (Richter & Moore), 271
non-invasive central system (Richter & Moore), 271
unreliability of Schilling test in detecting genetic predisposition to (McIntyre, P. A.), 181
DNA-containing mid-bodies
and intercellular bridges in tissue culture (Malinin et al), 42
Dysrhythmia, occipital
relation between specific types and visual defects (Gibbs et al), 343

Eaton-Lambert syndrome
guanidine in treatment of (Merikangas & Johns), 37
Edema
cerebral (Langfitt et al), 261
Electroconvulsive therapy
in orthostatic hypotension (Gilbert, J.), 373
Electroencephalogram
development of grand mal after missile wounds of the brain (Russell, W. R.), 250
focal and generalized spikes (Niedermeyer, E.), 11
relation between specific types of occipital dysrhythmia (Gibbs et al), 343
Electromyograph
in muscle action potential (Merikangas & Johns), 37
Encephalomyelitis, disseminated
associated with Hodgkin's sarcoma (Richter & Moore), 271
Endometrium
chromosomes of (Katayama & Jones), 84
Endotoxin
studies on pathogenesis of generalized Shwartzman reaction (Collins et al), 375
Enzymes
or erythrocytes (Smith et al), 168
Epilepsy
focal and generalized (Niedermeyer, E.), 11
following missile wounds of the brain (Russell, W. R.), 250
Epstein, R.: See Ehrhardt, A. A., jt. auth.
See Lewis, V. G., jt. auth.
Erythrocytes
enzymes of (Smith et al), 168
Esotropia
alternate day (Richter), 218

Fetal androgens
female gender identity (Ehrhardt et al), 160
concordance of verbal and nonverbal ability in the adrenogenital syndrome (Lewis et al), 192
Forty-eight hour cycles
esotropia in children (Richter), 218

Gender-identity
in early treated adrenogenital syndrome (Ehrhardt et al), 160

Genetic and auto-immune features of pernicious anemia.
I. Unreliability of the Schilling test in detecting genetic predisposition to the disease (McIntyre, P. A.), 181
II. Effect of transplacental transfer of antibody to intrinsic factor (Charache et al), 184
Gilman lecture, October 10, 1967, 129
Grand mal
development after missile wounds of brain (Russell, W. R.), 250
Growth hormone release in man
comparison of effects of insulin and pyrogen as stimuli (Raiti et al), 154
Guanidine
effect on muscle action potential (Merikangas & Johns), 37

Head injury (Langfitt et al), 261
Heart
African green monkey (Malinin & Perry), 380
contraction in vitro (Malinin & Perry), 380
coronary disease (Thomas, C. B.), 69
endomyocardial fibrosis (Antia et al), 87
experimental coronary artery narrowing in swine (Malinin et al), 102
focal myocarditis (Roberts et al), 26
giant left atrium (Roberts et al), 26
lymphatic obstruction (Antia et al), 87
mitral regurgitation, chronic (Roberts et al), 26
morphologic and histochemical myocardial changes in swine (Malinin et al), 102
papillary muscle dysfunction (Roberts et al), 26
perfusion (Malinin & Perry), 380
rhesus monkey (Malinin & Perry), 380
ruptured chordae tendineae (Roberts et al), 26
Hematoma
spontaneous cerebellar (Lichtenstein, R. S.), 319
Hermaphroditism (Ehrhardt et al), 160
(Lewis et al), 192
Hodgkin's disease
in association with disseminated encephalomyelitis (Richter & Moore), 271
Hyperoxia
effect on erythrocytes (Smith et al), 168
Hypertension and coronary diseases among
healthy medical students (Thomas & Ross), 196
bimodal distribution (Clark et al), 77
mixture of two normal distributions (Clark et al), 77
Hypopituitarism
aldosterone secretion rate (Raiti et al), 229
cortisol secretion rate (Raiti et al), 229
corticosterone secretion rate (Raiti et al), 229
Hypotension
orthostatic syndrome (Gilbert, J.), 373

Immune complex disease
Influence of cortisone on transit of specific macromolecules across vascular walls (Germuth et al), 137
Insulin
comparison of effects as stimuli to growth hormone release in man (Raiti et al), 154
Intelligence (Lewis et al), 192
Intercellular bridges
and DNA-containing mid-bodies in tissue culture (Malinin et al), 42
Interstitial spaces
perfused myocardium (Malinin & Perry), 380
Intracranial pressure, increased
infarctions (Greenwood, J., Jr.), 254
surgical indications (Greenwood, J., Jr.), 254
Intrinsic factor production
in newborn with transplacentally acquired antibody (Charache et al), 184
Iron deposits and cytosiderosis in ventrolateral nucleus of the thalamus in Parkinson's disease (Asenjo, A.), 284

Jaundice
obstructive (Abei & Iber), 112
Kidney
ileal urinary diversions (Texter & Murphy), 224
renal agenesis (Texter & Murphy), 224

Leucocytes
production of glomerular thrombosis and renal cortical necrosis by intraaortic thrombin infusion in normal and leucopenic rabbits (Collins et al), 375
Leucoencephalopathy
progressive multifocal differentiation from multiple necrotic softening associated with lymphoid tumor (Richter & Moore), 271
Lindbergh-Carrell
NMRI organ perfusion apparatus (Malinin & Perry), 380
organ perfusion apparatus (Malinin & Perry), 380
Low threshold muscle afferents
projection to cortex (Narabayashi, H.), 295
projection to thalamus (Narabayashi, J.), 295
Lung
in cystic fibrosis of pancreas (Esterly & Oppenheimer), 94
lymphoid tissue in (Esterly & Oppenheimer), 94
Lymphatic obstruction, chronic
experimental evaluation of plantain ingestion (Antia et al), 87

Macromolecules
transit in immune complex disease (Germuth et al), 137
Meningioma
posterior fossa (Lang et al), 336

Mitral regurgitation
unresolved etiology in the elderly (Roberts et al), 26
Monkey hearts, contracting
observations maintained in vitro at hypothermic temperatures (Malinin & Perry), 380
Muscle action potential
effect of guanidine (Merikangas & Johns), 37
Myasthenia gravis
effect of guanidine (Merikangas & Johns), 37
Myelopathy
with malignant tumors (Richter & Moore), 271
Myocarditis
focal (Roberts et al), 26
morphologic and histochemical changes in swine (Malinin et al), 102
perfused, histological changes (Malinin & Perry), 380

NCTC-109
as heart perfusion media (Malinin & Perry), 380
Necrotizing pneumonia
in cystic fibrosis (Esterly & Oppenheimer), 94
Nephropathy
salt-losing (Walker et al), 45
Neuromuscular junction
increased output of acetylcholine (Merikangas & Johns), 37
Neuromyelitis optica
associated with malignant lymphoma (Richter & Moore), 271

Obstruction
following posterior fossa surgery; the postoperative Dandy-Walker syndrome (McLaurin & Ford), 309
Orthostatic hypotension syndrome
case report and response to electroconvulsive therapy (Gilbert, J.), 373

Papillary muscle dysfunction
in chronic mitral regurgitation of unresolved etiology in the elderly (Roberts et al), 26
Parkinson's disease
clinical and experimental study in cytosiderosis and iron deposits in ventrolateral nucleus of thalamus in (Asenjo, A.), 284
Parkinsonian tremor (Narabayashi, H.), 295
Plantain
ingestion of (Antia et al), 87
Plasma cells
in infants' lungs (Esterly & Oppenheimer), 94
Pressure
increased intracranial, due to infarction, surgical indications (Greenwood, J., Jr.), 254
Progstigmine
in myasthenia gravis (Merikangas & Johns), 37
Protein
distribution in myocardial fibers (Malinin & Perry), 380
Psychosexual differentiation (Ehrhardt et al), 160
Pulmonary lesions
in cystic fibrosis of pancreas (Esterly & Oppenheimer), 94
